It seems desirable to fix the maximum amount that may be required in order that any possible illicit practice of conveying pretty large quantities of spirits daily may be easily found out.

Would it not be better if the Excise Comr ascertains and reports what the maximum amount of consumption in the hospitals would be.

No: 4220

From

H.H.Sparkes Esquire,
Excise Commissioner in Mysore.

To

C.S.Balasundram Iyer Esquire, B.A.,
Offg. Secretary to the Govt. of H.H.
the Maharaja of Mysore,
General & Revenue Departments.

Sir,

Adverting to Government Proceedings No.5344-5/Ex.F. 21-96, dated 19th January 1901 sanctioning the annual issue of the required quantity of rectified spirit 60 O.P. at cost price duty free for the bona fide use of Saint Martha's Hospital, Bangalore, I have the honor to state that the quantity of the spirit that may be issued duty free is not explicitly mentioned in the order. In the letter read six gallons are mentioned as the probable annual requisition. But applications for more than six gallons were being received and attended to. A requisition for a further supply during the year of 12 gallons has been received on the 3rd instant and forwarded to the Excise Inspec-tor, Government Central Distillery for compliance.

2. I beg to know whether the word "requisite" used in the Government order above quoted means the quantity indent-ed for or only six gallons. I am of opinion that as much -- quantity of rectified spirits as are required for bona fide medical purposes in the Hospital may be supplied at cost price duty free.

I have the honor to be,
Sir,
Your most obedient servant
